## **RochesterWorks! Names Nanotechnology Company, SiMPore, Inc., November Employer of the Month**

Rochester, NY—November 4, 2009—RochesterWorks! has selected SiMPore, Inc as employer of the month for November.

To be named an Employer of the Month a company must be growing, increasing the skills of the local workforce, and offering opportunities to job seekers in our region.

SiMPore was chosen based on the company's dedication to its employees and commitment to its current and future workforce. With assistance from two Finger Lakes Wired Scholarship grants, SiMPore provided training to their employees, thus increasing their skills and providing them the tools they need to succeed and prosper. SiMPore has also shown dedication to the future workforce by committing to posting positions with RochesterWorks! and to working with their local one stop center.

SiMPore is a Rochester, New York-based nanotechnology company that designs and produces membranes and membrane-enabled products based on its unique patent-pending platform technology—the UltraSM® ultrathin nanoporous silicon membrane. The UltraSM® membrane is the world's first membrane to offer both tunable nanometer-scale thickness and pore size. SiMPore is developing products that take advantage of these one-of-a-kind features, including filters for separating and concentrating biological molecules and nanoparticles, cell culture substrates for growing cells, and electron microscopy grids for preparing and imaging samples at the nanoscale.
