

Perseverance and Follow Up Pay Off

It has been a while since I was last at Rochester Works, 12/31/09 to be exact. Anyway, I just wanted to extend a sincere THANK YOU for your help with the resume writing, reviews, and the elevator speech.

The perseverance and follow ups have paid off. I have had several interviews as a direct result of an eye catching resume.

The big payoff came yesterday, when one of my target companies extended an offer to me that I will accept today.

My goal of having no lag time from my termination of employment from Rohm & Hass has been accomplished, and I was able to find employment with a company that I respect and share my work and ethic values with.

Thank You!

Dennis
