Program Description:

Drafting is the process of preparing drawings to communicate ideas and instruction for others to follow. Those employed in the field prepare detailed drawings for engineering, architectural, manufacturing and construction purposes. This certificate program is designed to prepare students with competencies to work as technical support personnel. Courses taken may be applied toward a degree should you later decide to complete the associate degree requirements.

Program length/hours:

26 credit hours (8 courses); requires more than 2 semesters to complete because of sequential prerequisites of classes.

Services Provided:

Advisement and skills assessment, personal development/counseling, and a full array of career services are available to all students.

Application/Admission Process:

- Complete an application packet
- Submit a high school transcript or GED score report
- SAT or ACT test scores are required or Compass Placement Testing

Tuition/Cost/Fees: \$110 per credit hour plus college fees, books, and supplies or \$1,450 per semester for full-time students (enrolled for 12 or more credit hours) plus college fees, books, and supplies
